Dear Valued Customers,

In response to the latest concern regarding the use of lead paint in the manufacture of toys, PlanToys® would like to reassure all retailers and consumers that PlanToys® is manufactured with the highest safety and environmental standards in mind. We build 100% of our products within our own factory, so we control the entire process from wood selection, manufacturing, to shipping.

- *PlanToys® is manufactured from replenishable rubberwood.*
- *PlanToys® uses a natural kiln dry process, in place of chemical treatment, to preserve and stabilize the wood, thus making all PlanToys® products preservative-free.*
- *PlanToys® uses natural, water-based dyes in place of any type of paint to add accent colors.*
- *PlanToys® has won the following standards and awards for safety, environmental sensitivity and innovative design:*
 - *ISO 9001 - Quality Management*
 - *ISO 14000 - Environmental Management*
 - *OHSAS 18001 - Occupational Health and Safety Management*
 - *SA 8000 - Social Accountability Management*
 - *ASTM & EN71 - Toy Safety Standards*
 - *Parents' Choice Awards*
 - *Oppenheim Toy Portfolio Awards*

PlanToys® takes tremendous pride in providing safe toys that are manufactured with sensitivity toward our environment. For more information about PlanToys®, please request a copy of the PlanToys® Leaflet (item #84340), or contact our office at (866) 517-7526.

*Sincerely,
Nittaya Zeugfang
President*
